BAKERTOP MIND.Maps™ BAKING SYSTEM.

Maximum performance, highest productivity.

In retail, use of space and time management are the secrets of success.

BAKERTOP MIND.Maps™ is the oven that grants you the best performance with the minimum footprint. With UNOX baking stations and trolley ovens, you will maximize your productivity, optimize your work space and obtain the maximum return on your investment.

Repeatable baking processes to save time, raw materials and money. In a unique design.

LONGLife4!

Unox offers you the possibility of extending the guarantee on spare parts up to 4 years or 10.000 hours on-time. This is the LONG.Life4 program, tangible proof of the quality and reliability of BAKERTOP MIND.Maps™ ovens. Activation of the LONG.Life4 guarantee is simple. You just need to connect your BAKERTOP MIND.Maps™ ONE with the dedicated kit and register it on the Unox website. The PLUS models are ready prepared for internet connection (Ethernet) and allow you to register directly from the control panel. Kits for WiFi or 3G connection are available for both models.
