PRODUCT CATALOGUE

WORLD CLASS CONCEPTS CORP.
IMPORTER WHOLESALER DISTRIBUTOR

MISSION

World Class Concepts is dedicated in bringing life-changing global concepts into homes and establishments. We are passionate about serving high quality state – of – the art tools and equipment that answers to the dynamic and demanding need of modern living.

VISION

To be the number one carrier of world class brands that suite the emerging lifestyle, culture, and value of modern society.

We envision our company to be the benchmark in quality products and excellent customer service towards every target market in the Philippines.

PROFILE

World Class Concepts Corp. is the sole distributor of globally acclaimed brands for the professional full line of kitchenware, glassware, household utensils, as well as hotel and restaurant supplies through a highly skilled network of regional distributors and dealers across the country.

The company sells products to Sub-Distributors, Wholesalers, Department Stores, Supermarkets, Hotels, Restaurants, Schools, Hospitals and other industry partners. A large inventory of the products described is maintained, and special orders are also available for professional designers and architects planning their client's homes and kitchens.

In its third generation of management, the company has always kept its quality of high standards, credibility and expertise with its roster of brands growing along with it. At World Class Concepts Corp., we make it our business to not only deliver quality goods to our customers but bring our World Class innovation and new technology to the Philippines.

Equipment DIVISION

World Class Concepts Corp.'s Equipment Division is assigned to sell and distribute catering equipment of well-known brands like Angelo Po, Shaerer, Convotherm, Nordien System, Sirman etc., Our clientele includes Hotels and Restaurants, Resorts, and other known institutions. We also supply other brands with equipment for Cooking, Storing, Preparation, Baking and Refrigeration; including Technical Services, Repair and Maintenance and the supply of spare parts from GEV Group Professional in the shortest time.

Our Technical Services group, the backbone of the after sales services envisions to serve and enforce the Warranty Agreement to its utmost meaning.

Our sourcing network covers high quality brands from Italy, Germany and other European countries, as well as the U.S.A.

For more than 40 years Sirman has been manufacturing the finest food processing machines for the professional kitchen and retail industry.

Sirman has constantly committed to a high level of organization and teamwork to fulfill the needs of over 500 dealers nationally and in 125 countries worldwide with products entirely designed and made in Italy.

Nordien-System is the UK's market leader in the design and manufacturing of dishwashing handling systems, supplying industrial and professional kitchen equipment of all sizes; renowned for high quality and reliable products. The Nordien-System products are innovatively designed, sturdy and built to withstand the rigours of a commercial kitchen, in a variety of establishments from hospitals and schools to top star restaurants.

By using equipment from the wide range of Nordien-System products you will be able to handle crockery, cutlery and glasses with the minimum amount of contact so you will provide a quicker, more hygienic and efficient service.

With more than 80 years of experience and history in the catering industry, ANGELO PO concentrates its production on providing catering equipment for the home and the world-wide market. ANGELO PO's pride in its workmanship and expertise gained, helps guarantee the highest value of reliability, safety, hygiene and performance from all its products.

ANGELO PO can boast of a quality system certified UNI EN ISO 9001:2000, of an environmental management system certified UNI EN ISO 14001:2004 and internationally recognized approvals of compliance including CE, CSQA, NSF, NF, UL for various products.

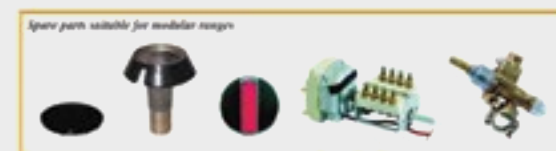

Shaerer's focus is on providing coffee enjoyment that inspires people's emotions.

From the start, Schaerer has endeavoured to unite superior technology with the quest to indulge the senses. This has been instrumental in making Schaerer a leading provider of fully automatic, integrated coffee and milk solutions. Thanks to its broad product range and extensive know-how Schaerer is a preferred coffee partner for companies and individuals throughout the world who want to enjoy excellent quality and services to the fullest.

GEV GmbH is Europe's leading wholesaler for catering equipment spares. GEV has some 70,000 items for equipment suitable for over 450 manufacturers permanently in stock. GEV's customers, specialist dealers and repair engineers as well as international distributors across the globe already know the value of such extensive stocks.

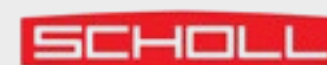

"Made in Germany" - Where quality is still number one.

Since the establishment of the company in 1976, Convotherm has developed to become one of the leading suppliers of combi steamers worldwide. Today Convotherm's red C stands for three things in particular: innovation, flexibility and speed.

As flexible as the people who use Convotherm products: this is how versatile Convotherm requires its convection steamers to be. CONVOTHERM offers its customers a multitude of options to meet their requirements and their individual uses for the steamer, thereby guaranteeing the best possible application for everyone.

At Friedr. DICK, more than 40 process stages are necessary in the manufacture of a forged chef's knife. A forged blade is produced from a single piece of red-hot steel under high pressure without any welding. This greatly compacts the steel. Blade, bolster and the full tang guarantee optimum weight distribution. The base material is a high-alloy stainless steel.

KNIVES

pro dynamic

Hazard Analysis and Critical Control Points (HACCP)

HACCP means that hazards are analysed and counter-measures are taken. For a product to be deemed as a hazard is unacceptable and can cause contamination of food, which means an unreasonable risk for the consumer. Here, in particular, special importance is placed on preventive measures. Proof of these individual control measures must be provided by the companies towards the supervisory authorities. A perfect example can be the contamination of fresh salad through salmonella from poultry (cross-contamination). When cutting raw poultry there is a risk of salmonella sticking to the knife blades. If the same knife is subsequently used to cut salad, the salmonella can be transmitted and thus also be passed onto humans. Friedr. Dick has long offered corresponding color coded products in its programme in order to prevent these hazards.

Meat Cutlery

F. Dick Pro-Dynamic knives ensure a strict separation of cutlery among food service work stations in compliance with FDA HACCP regulations. Pro-Dynamic knives feature color coded solid plastic handles hygienically sealed to their high-quality stainless steel blades. Available with red handles (meat) are:

85456210-03	8" Slicer

Edlund

Made in its factory in Burlington, VT, USA, Edlund manual can openers are built to last. Its also easy to use, easy to clean, and come in a variety of models to fit your specific needs. People don't ask for a new Edlund can opener, they just say its model number. Edlund is the Xerox® of foodservice.

JETHRO #1 Edlund "Old Reliable" Manual Can Opener #1

- New design for more rigidity
- New Melonite arbor provides greater rust resistance
- Improved casting technology promotes plating life
- Made in USA
- New replaceable plastic base insert provides smooth glide action and reduces wear on opener shaft

JETHRO #2 Edlund "Old Reliable" Manual Can Opener #2

- New design for more rigidity
- New Melonite arbor provides greater rust resistance
- Improved casting technology promotes plating life
- Made in USA
- New replaceable plastic base insert provides smooth glide action and reduces wear on opener shaft

The system comprises coloured base racks with closed external walls for hygiene and protection into which caterers fit extender racks with varying compartments and heights. Full flatware, peg and open-end tray racks are also available, along with rack covers for safe storage and wheeled dollies for transportation. The racks load directly into the washer for cleaning. Extender racks provide 9, 16, 20 cup, 25, 36 or 49 compartments.

Available Colors:

Food & Beverage Operating Systems

Multi-functional

Buffet

Dining

Beverages

Cocktail

It's a table that never needs carrying.
It's a table whose speed of handling is 5 times faster than all others.
It's a table that converts into 3 different styles.
It's a table which, in just one size, can service all your event needs.
It's a table truck whose storage is half what you expect.
It's a table whose edges are indestructible.
It's a table that never touches another during storage, ever.

And therefore it's a system that delivers perfect linen-free presentations for a very long time.

Smart Top Technology...

Vinyl and rubber edging, even frameless glass, has all been tried and tested by us. The best they deliver are disposable tops. Tops that need constant replacing, tops that quickly compromise your linenless presentations.

And so we developed our own edging: a beautiful, indestructible stainless steel frame. It's a lifetime protection of your table edges

It's a visual appeal that unifies the tops to the stands perfectly.
It's the only table to make you money from day one of operation.
For those of you who are operating our original cross cube models, don't buy new tables. Simply upgrade your existing tops to this new stainless frame and enjoy the refurbishment, rather than a replacement.

an indestructible edging...

Butler Service

Why not offer a royal dining experience to all your guests? This beautiful butler system was designed in conjunction with **Armani Hotels** and reasserts IHS's reputation as the **global IRD specialists**.

Comprising a cold box, hot box, and 2 trays with a lid, its modules can be separately used across many delivery and presentation needs.

Cross Cubes

Buffet presentations were dull. For years you pondered on ways to best to entice your clients to the buffet;

Then we released the first series of our globally renowned Cross Cubes. Like Lego, the design is simple, yet the possibilities are endless.

Like Lego, no other version stacks up.

Free Fold Table

Presentation Cubes

Live cooking

When commercial kitchens with their full artistry came into the limelight, it was a trend that was quick to excite. The pace, the live flames, the freshness of the food, and of course the interaction with the Chefs.

We were the first to expand on this and offer individual food and beverage stations that could be transported anywhere throughout your establishment.

And now, testament to our intimate experience with your world of gastronomy, we introduce the most comprehensive array of cooking, holding, chilling, and beverage dispensing concepts.

Formidable logistics & Storage efficiency

"Save 50% of your valuable floor space through our smart storage systems"

Nothing is smarter than our Vertical truck design, Cross cubes truck design, A-frame freefold design, 2-rack tray storage & Caddy storage system when it comes to saving up space for you storage system.

There is not an inch of wasted space in the design of our storage system.

Valera+
SWISS HAIR SPECIALIST

SWISS + MADE

VALERA means Hair Specialists. VALERA deals exclusively with hair care appliances and therefore has a specific competence about hair that other non-specialized brands of electrical appliances cannot have. It is necessary to have a deep knowledge of hair in order to be able to create appliances that treat the hair in a healthy and careful way.

Valera+
PROFESSIONAL

Haircare Appliance for Professional Use

Working Tools for Hairdresser Masters

VALERA PROFESSIONAL offers a range of professional tools which fully meet the requirements of the most demanding hairdressers in terms of high quality and reliability. All the appliances feature top level performances which make the hairdresser's daily work easier and respect hair's delicate structure.

Valera+
SWISS HAIR SPECIALISTS

Haircare Appliance for Domestic Use

Valera: Swiss Hair Specialists

For more than 50 years, Valera has been producing haircare appliances. Its continual reference point, around which design and production revolve, is the health and look of the hair and therefore the well-being and image of the person. A deep knowledge of hair is vital for the creation of equipment that enables the healthy and careful treatment of hair.

Valera+
HOSPITALITY

Haircare Appliance for Hotel Use

VALERA: No. 1 in Hotel Hairdryers

The finest hotels in the world have chosen VALERA hairdryers: Burj Al Arab, Kempinski, Marriott, Swissotel, Intercontinental, Radisson, Peninsula, Hilton, Renaissance, Mövenpick, Jolly, Taj Mahal, Le Meridien, Sheraton, Novotel, Holiday Inn, etc. More than 100.000 hotel guestrooms worldwide are equipped yearly with VALERA hairdryers.

ANOLON®

Anolon offers a broad array of cookware tailored to meet your personal style and approach to cooking. From stainless steel with copper to clad metal and hard anodized nonstick, each collection offers distinct features crafted to meet the unique cooking preferences of the discerning home chef.

More than exceptional functionality and performance, each Anolon cookware line offers a distinctive look to coordinate beautifully with your kitchen as well as express your own unique point of view. What could be more joyful & delicious?

ANOLON ADVANCED cookware

Features:

Performance & Durability

Anolon Advanced is constructed in heavy gauge Hard Anodized aluminium which is twice as hard as stainless steel, making it incredibly durable whilst providing outstanding, even heat distribution, with no hot spots.

SureGrip™ Fittings

The innovative, ergonomic handles provide a soft, cool, confident grip using a combination of high quality stainless steel and silicone rubber. They are durable and oven safe up to 180°C/375°F/Gas Mark 4.

Enhanced non-stick coating

Restaurant tested by professional chefs, Anolon Advanced features Autograph 2 advanced non-stick technology, inside and out. It surpasses all other 'standard' non-stick formulas, delivering long lasting non-stick performance with superior durability, which stands up to the strength of everyday kitchen use.

Comes with a 10-year guarantee

Size: 18CM/2.8L

81875
COVERED SAUCEPOT
Hard Anodized Cookware
Size: 20CM/3.8L

NOUVELLE COPPER

cookware

Features:

Anolon® Nouvelle Copper features durable, hard anodized construction crafted with copper to deliver optimum heat control and perfect cooking performance. The double full cap base features a copper core, enveloped between aluminum, completed with a magnetized stainless steel base. The copper and aluminum provide excellent heat conduction, and the stainless steel base makes this cookware suitable for all cooktops, including induction.

Restaurant tested Autograph® 2 nonstick delivers enduring food release and easy cleaning, and is metal utensil safe. The generously appointed cast stainless steel handles are attached to the pan body using innovative flush-rivet technology, making clean up quick and easy. The elegant stainless steel lid fits securely, locking in flavor and nutrients. With its attractive tulip shape and excellent heat conduction, Anolon® Nouvelle Copper delivers timeless performance that will be treasured for years to come. Oven safe to 500° F.

82735
8-INCH SKILLET
This skillet is just the right size for smaller cooking tasks like toasting nuts, frying an egg, or grilling a single sandwich.

82734
2-QUART COVERED SAUCEPAN
This smaller saucepan is useful for tasks like heating stock for risotto, making rice or blanching nuts. When the 3 quart saucepan is just a bit too big, this 2 quart size will be just right.

82739
3-QUART COVERED SAUTE PAN WITH HELPER HANDLE
The straight-sided design of this sauté pan helps keep food inside the pan where it belongs

83322 • 83323
COVERED STOCKPOT
This graceful, eye-catching stockpot can handle a workload. From aromatic homemade stocks to your family's turkey soup after a holiday meal to a simple batch of pasta, this pot is sized for the task.

82791
5.5-QUART COVERED SAUCIER WITH HELPER HANDLE
The inside edges of this saucier are rounded to easily fit a whisk or a spoon – this allows the food in every part of the pan to be whisked and stirred

82790
3-QUART COVERED CASSEROLE
The deep sides of this pan make it ideal for dishes with more volume, like a hearty spaghetti sauce or a one pan meal. The lid and small side handles make it a good choice for baked dishes as well.

Features:

For Stainless Steel with non-slip Handles:

- SureGrip™, ergonomic handle for a soft feel, cool and slipfree grip.
- High quality Stainless steel heads for maximum durability and style.
- Cast steel loop for easy hanging.

For Nylon Utensils with non-slip Handles:

- SureGrip™, ergonomic handle for a soft feel, cool and slipfree grip.
- Non-stick, durable nylon heads, heat resistant to 400°F/210°C.
- Cast steel loop for easy hanging.

50407

Dishwasher Safe: Yes, Top Rack Only
Warranty: Lifetime Limited
Material: Stainless Steel

French Press with Milk Frother

French Presses

Bonjour's reputation as specialists in gourmet coffee-related products began in 1995, with the introduction of their first French Press Coffee Maker. They currently offer a comprehensive selection of French Press Coffee Makers to compliment any style, and they continue to innovate and improve the functionality of this superior coffee maker.

With their new Triomphe French Press, they offer thermal insulation to keep coffee hot, and our patented Flavor Lock™ filtering system which shuts off the brewing process to maintain that perfectly brewed taste throughout the pot.

In addition to their Flavor Lock filtering system, with the new Ami Matin French Press they offer a classic bistro-style carafe in unbreakable, BPA-free Tritan™ plastic that is crystal clear and dishwasher safe. The assortment of designer colors adds fun to the kitchen and to the coffee-making routine.

Milk Frothers

After first powering the frother craze five years ago, they've recently introduced the next generation of milk frothers. These frothers include the sleek new Caffé Froth collection with designs that compliment their Maximus and Monet French Presses; and the colorful and fun Mini Frother collection.

CIRCULON®

Healthy never tasted so good, or lasted so long.

Circulon cookware features the patented TOTAL® Food Release System of circles. The raised circles means that less nonstick comes into contact with kitchen utensils for cookware that will last through every important milestone. This unique nonstick technology also makes it easy to prepare low-fat meals because there's no need to grease the cookware, ensuring a healthy future for the ones you love.

Discover Circulon – and experience exceptional nonstick performance for yourself.

CIRCULON 2

cookware

Features:

- TOTAL® Hi-Low Food Release System. Hi-low wave technology offers increased abrasion resistance. Ideal for reducing or deglazing sauces.
- Easy clean, non-stick exterior – not normally associated with hard anodized exteriors.
- Break-resistant high domed glass lids offer see-through convenience that allows you to monitor the cooking without constant lid lifting
- Heavy gauge, hard anodized aluminium – twice as strong as stainless steel for outstanding durability and even heat distribution with no 'hot spots'.
- Ribbed phenolic handles are heat-resistant providing stay-cool comfort during stovetop cooking.
- Oven safe to 400 °F/204 °C /Gas Mark 6.
- 10-year guarantee.

Polypropylene Food Pans

In nearly every commercial foodservice application from diners to delis and many more utilize the food pans for their storage and organizational benefits. Translucent Food Pans are perfect for commercial restaurant applications since it is constructed from a translucent polypropylene material that provides content visibility and high chemical resistance.

Food Storage with Lids

Food Storage Container is a necessity for any home or kitchen. These food containers can store ingredients in a variety of applications, including coolers, freezers and in the pantry. Translucent plastic is durable and resistant to stains.

Polycarbonate Drain Shelves

Are you storing your meat and vegetables in food pans without drain shelves? If you said yes, then you're probably serving meat served rare, presented in its own juices complimented by a side of soggy, slime covered veggies. Gross!

You can't help pooling at the bottom of food pans, but you can utilize drain shelves to keep the food dry. Even foods that require some moisture in storage, such as carrots, can benefit from these pans. Simply insert into your existing food pans and voila! Immediately foods are lifted up and away from excess water.

Transparent Food Covers

Providing meals at the correct temperature can mean that the food isn't quite as hot as it should be. These food covers will make sure every meal in your assisted living community, hospital or correctional unit is in perfect condition. The insulated, non-porous plastic construction means the cover is lighter and quieter than metal equivalents. It keeps food warmer for longer and is both stain and odor resistant. Heating food is a breeze as the cover can be popped into the microwave and can withstand

Glass, Plate & Tray Racks

These racks are made from exceptionally durable, long lasting polypropylene which is able to resist temperatures of up to 200°F and harsh detergents. Designed with inside compartments with several openings for maximum circulation during cleaning and closed external walls to prevent contamination, all of which makes these racks for cleaning, storing and moving needs.

Condiments Accessories

Supplying customers with a range of tableware and condiments can often result in a mess of a situation. Keep your condiments and flatwares separated and organized with our Condiment Holders, Flatware Cylinders and Salt & Sugar Rimmers. Constructed from dent and scratch resistant ABS plastic, and comes with a shatter-proof polycarbonate lid, ensuring that these models will be able to satisfy your customers through extensive service.

LUCARIS
Crystal of Modern Asia

New!
DESIRE
Series

Passion creates perfection.

The art of vinification goes beyond traditional mastery. It's the affection, that brings wine lovers, and glassmakers together to co-create an exquisite crystal stemware. Every single glass is uncompromisingly clear and brilliant, co-designed and co-created by Lucaris and the Hong Kong Sommelier Association - Greater China. Aerlumer - the bottom curl lines at the bowl makes for an unprecedented appreciation experiences.

Aerlumer

Encourages micro-oxidation and softens the wine while swirling as it allows diversified interaction between wine and air, intentionally subtle to avoid effects when discovering colors of wines.

Melody

Ice Cream Scoops

Melody round squeeze scoopers are constructed entirely of 18-8 stainless steel offering durability, convenience and an ergonomic design. The scooper is made for serving precise portion controlled food such as ice cream, mashed potatoes, rice, butter, sour cream and other soft foods.

- Features:
- Round Squeeze Scooper
 - Ergonomic Design
 - Universal Squeeze Handle
 - Made with 18-8 Stainless Steel
 - Made in Japan

Comes in sizes ranging from 8 - 28 (with 8 being the largest and 28 being the smallest)

Located in Brussels, the logistic heart of Europe, MERCURA ® INDUSTRIES S.A. manufactures high-quality mobile hotel equipment made of anodised aluminium. Available throughout the world, the MERCURA multisectoral flexible solutions are based on user experience. The ease and comfort of use of the MERCURA products diminish handling efforts, and provide an increased efficiency at work and improve performance.

Meyer Corporation is one of the largest, most innovative cookware companies in the United States. Meyer leads the field in non-stick hard-anodized pan production with global brands such as Circulon and Anolon propelling growth in the gourmet cookware category. Meyer is always at the forefront of cookware innovation, producing cutting-edge, highest-quality cookware at fair prices.

ALUMINUM GOOD cookware

Features:

- Aluminum
- Du Pont Teflon Classic non-stick interior
- Blue porcelain enamelled exterior
- Heat-tempered, break-resistant glass lids
- Riveted phenolic handles & Stove top to oven use
- Attractive and easy to maintain. Ideal for smooth-top cookers.
- Securely fastened 'stay cool' handles will not work loose due to expansion or contraction.
- Oven safe to 180 °C/350°F. Start a recipe on top of the stove and finish cooking it in the oven without having to change pans.
- 1-year guarantee

GLASS
CUSTOMIZING
SERVICES

DECAL

Decorating your glassware with unusual shapes and/or decoration with complicated color graduations is a breeze using this process.

Designs are first printed with on transfer foil which is then applied to the glass. Through the firing process, the colors are bonded to the glass, with the same result as that of screen printing process.

AUTO SCREEN PRINT

Automatic Screen Printing

Color enamels are printed directly onto the glass and bonded by fire.

Decorations are scratch proof and dishwasher safe. A maximum of 8 colors can be printed on the glass through this process

FROSTING

Frosting

A decoration process that creates a white translucent finish on the glass surface, frosted glass can also be printed or decorated with transfer pictures to create more distinctive appearance.

BAKING DISHES collections

*Wilmax tableware is multifunctional: one product can serve several purposes.
 For example, an open sugar bowl can be used as a dessert bowl, and a bread vase can serve as a fruit dish.
 You can bring the dishes straight from the oven to the table as their
 their neutral design will be in harmony with the table setting.*

France's leading porcelains manufacturer for Hotel and Catering industry since 1826.

All Apilco items are made in France, and the material used is "hard porcelain". Their company has preserved the essence of its ancestral and legendary craftsmanship; excellence combined with modernism. All porcelain products are totally non-porous and this makes it resistant to mechanical and thermic shocks. Its various collections perfectly meet Chef's requirements for functional yet aesthetic tableware of harmonious design: a wider rim, inglaze decorations, a resistant but elegant porcelain.

Fairway Fine China specializes in high-quality everyday porcelain and hotelware. Especially its newly developed fine collection "Fairway" - a collection of western style porcelain with its visible elegant outlines and varied shapes for your selection. Additionally, all products are durable and can withstand restaurant, hotel and kitchen usage. Fairway also produces sushi display porcelain with its sophisticated and flowing surface, special shapes, varied designs and superior quality. All Fairway products are microwave and dishwasher safe as well as FDA approved.

MEPRA

S. p. A.

Since 1947, Mepra's mission has been to design and manufacture flatware and holloware using only the finest materials and finishing techniques. With over sixty years of professional foodservice industry experience coupled with modern utilitarian design, Mepra offers a complete range of innovative and contemporary products that are instep with the latest trends.

Mepra's products are designed and made in Italy in its own factory. It has complete control over the design and manufacturing process and therefore can offer its customers unparalleled service and the utmost quality assurance.

PADERNO

LIVING THE KITCHEN

Prince Edward Island is better known for Anne of Green Gables, sunny beaches and potatoes than for quality cookware. But since 1979, Paderno has been making people across North America stand up and take notice as it provide them with some of the finest cookware found anywhere in the world.

As Canada's only cookware manufacturer, Paderno takes exceptional pride in the quality that goes into every product it sell. Paderno takes the time and care that's needed to make sure every piece of cookware delivers outstanding cooking performance, good looks, ease of use and durability. Such durability, in fact, that our cookware is called "Pots for Eternity."

CLASSIC, Our Original Cookware

This range of high quality stainless steel cookware features a heat-conductive bottom pad for superior cooking performance, durable welded handles and a flared, no-drip lip. Paderno's precise heat control, durability, ease of use and elegant design make it ideal for both home and restaurant use.

Our Classic PADERNO cookware is backed by an exceptional 25 Year Warranty.

PADERNO

WORLD CUISINE

The Paderno World Cuisine is composed of versatile Stainless Steel Cookware. Gleaming and easy to care for, this collection is a brilliant demonstration of stainless steel in all its versatility. It responds to the requirements of the most demanding chefs and satisfies the strictest standards for hygiene. Ready to shine with outstanding ability, this cookware preserves all the natural flavor and quality of each ingredient.

Series 1100, Grand Gourmet

The Grand Gourmet series boasts an outer and inner satin polish and a mirror-finish along the edges. Its stainless steel handles are hollow and tubular for an ergonomic shape that also allows for a stay-cool feature. The line has a sandwich, thermo-radiant bottom (stainless steel/aluminum/stainless steel) that is concave when cold and flat when hot, making it perfect for use on any type of stove, whether gas, electric, glass ceramic or induction. Made in Italy by Paderno. NSF approved. Limited Lifetime Warranty.
