

PRODUCT CATALOGUE | 2023

PROFESSIONAL KITCHEN EQUIPMENT

COOKING TECHNOLOGY | REFRIGERATORS | WAREWASHERS | SMALL APPLIANCES

Dear customers,

For over 145 years, Bartscher has been supporting you with an extensive range of commercial kitchen technology products.

Our products are successfully used in snack bars, classic restaurant- and hotel kitchens, school catering, caterers, retirement homes, sports clubs, as well as by ambitious hobby chefs.

We are constantly expanding our range with new products, which enables us to provide the best possible support for the ever-changing daily kitchen routine.

This year, we have also added numerous innovations to our range: new in-store ovens for the bakery, new dishwashing technology, new induction stoves incl. induction warming solutions, new refrigerated cabinets as well as many small & large appliances.

With our catalogue 2023 you have a good overview of our product range. Please visit our homepage at www.bartscher.com/en for more information, detailed product descriptions, operating instructions, exploded views as well as additional picture material.

We continued to successfully expand our project business last year and realized numerous new kitchen projects. Our extensive stock continues to be a basis for short delivery times related to the entire range.

Do you have any questions about our products and services? Please do not hesitate to contact us, we will be happy to provide you with our expertise and assistance.

Andreas Heumüller
General Manager

Wolfgang Mayer
Export Manager

EXHIBITION AND TRAINING CENTRES

Visit our exhibitions and experience the Bartscher appliance first hand. We will be happy to make appointments by phone.

EXHIBITION CALENDAR 2023

Once again in 2023, Bartscher will clearly show its presence at national and international trade shows.

Visit us on our booth at one of these shows and benefit from the individual expert advice of our trained sales team.

What you may be particularly curious about: At all our trade shows, we will again be presenting many new products that make your day-to-day work in the professional kitchen much easier.

For your annual planning we have listed all relevant trade shows dates.

01	15. - 17. 19. - 23.	HOGA, Nürnberg SIRHA, Lyon
02	13. - 14.	NORD GASTRO & HOTEL, Husum
03	10. - 14. 23. - 25.	INTERNORGA, Hamburg SMAKKI GASTROTARGI, Warszawa
10	13. - 17.	HOST, Milan
11	05. - 07. 11. - 15.	ISS Gut!, Leipzig ALLES FÜR DEN GAST, Salzburg

BECAUSE QUALITY ALWAYS WINS

EXPERIENCE AND EXPERIENCE SINCE 1876

Since the company was founded in 1876 and as part of the expansion of the family business in recent decades, Bartscher GmbH has consistently expanded its path to become a market-leading kitchen supplier in Germany.

WHAT BARTSCHER COMMERCIAL KITCHEN TECHNOLOGY MEANS FOR YOU

- The back-up of a strong and well-known brand
- The good sense of solid quality and excellent service
- Huge choice from an extensive product range
- Excellent price-performance ratio

OUR PROJECT MANAGEMENT

PRECISE PLANNING | PROFESSIONAL SUPPORT

INDIVIDUAL, PRACTICAL CONCEPTS

Are you planning to refurbish a commercial kitchen or are you thinking of adjusting the cooking area to suit your needs?

In the realisation of your ideas, we are happy to accompany you - whether with regard to needs analysis and function determination, or concept creation and project planning, whether in the supply system or in the subsequent installation planning.

We are also happy to assist you with the preparation of specifications. You are welcome to rely on our project department and you will always have a team of experienced professionals at your disposal.

An e-mail is enough: projekt@bartscher.com

CLOSE TO THE CUSTOMER IN EVERY PHASE

As a full-range provider, we offer you everything that is useful and helpful for professional commercial kitchens from a single source. In addition, we support our retail partners as well as architects and planning professionals with help and advice.

On request, we accompany you in close coordination in all phases of project management, for example

- Needs analysis
- Function determination
- Concept preparation
- Project planning
- Quotations
- Installation planning
- Specifications

COORDINATED TO YOUR PROGRAMS

For convenient and easy planning, we provide dxf data for download from our catalog products, which is very easy to read into any standard CAD program (including AUTO-CAD). You will find the dxf database here www.bartscher.com/en/Projektmanagement

Our project department is also at your disposal with a competent team in the field service.

We offer assistance and support in every phase. Give us a challenge!

IMPORTANT INFORMATION, FORMAL ADVICE

Our general terms and conditions are valid for all deliveries only.
Statements of weight do not include packing and transport materials/equipment,
(Euro Pallets, One Way Pallets etc).

Technical specifications are subject to change without notice.
All prices are given in Euro, not including delivery charges or value added tax.
All prices are recommendations only.
The reseller is free to set his own sales prices

REPAIRS TO SMALL APPLIANCES:

small appliances must be returned to the factory or to your specialist dealer for repair.

Information about new products and special offers can be found at:
www.bartscher.com

OUR RANGE AT A GLANCE

Series 700

Simply indestructible and thought through down to the last detail – Series 700.

The professional series made of sturdy stainless steel 18/10 forms the basis for every large kitchen. Reliable, user-friendly and high-performance - thanks to the modular design, the devices can be tuned to individual needs.

- ▶ Optimum performance by dual circuit burner

- ▶ Front panel with large operating knobs

- ▶ Easy cleaning: burner recess with detachable drip collecting tray

- ▶ Hygienic device connection

COOKING TECHNOLOGY

Cooking to perfection? Not such a simple thing to do. Or maybe it is: Because with Bartscher cooking technology, the certainty of success is already incorporated as standard regardless of whether it's a combi steamer, a hot air oven or a sous vide cooker.

Really flexible food preparation and serving. Snackpoint 200 enables food preparation and serving with maximum variability: From the hot dog stand to the grill station to the coffee bar - the mobile station is quickly and easily converted and perfectly adapted for the next use.

- Material: Stainless steel
- Number of niches: 1
- With glass top: Yes
- Size glass superstructure: W 790 x D 200 x H 300 mm
- Properties placement niche: Height-adjustable insert shelf: 3 heights
Surface: W 760 x D 590 mm
Can be fitted with optional extra insert shelves
- Equipped with: Storage compartment below the setting niches, dimensions: W 755 x D 580 mm
- Swivel casters: 4 swivel casters, 2 with brake
- Properties: 2 cable ducts
Magnetic stainless steel front can be used for advertising
Glass shelves (safety glass), rounded on server side
Diverse appliance combinations thanks to optional extra shelves
Possible connection of two or more Snackpoint 200s
- Including: Glass top
2 connection elements
Moveable shelf reinforcement for optional extra insert shelves
- Size: W 800 x D 600 x H 1,225 mm
- Weight: 42.3 kg

- ▶ A flexible all-rounder
- ▶ 1 niche
- ▶ Utility surface: W 760 x D 590 mm
- ▶ Designed for max. 2 table-top appliances

- ▶ Diverse appliance combinations thanks to optional extra shelves

- ▶ Possible connection of two or more Snackpoint 200s
- ▶ Shortened glass shelf available as optional extra

- ▶ Glass shelves (safety glass), rounded on server side

Combi steamer Silversteam-K 6110D

Thanks to the lengthwise shelves, the Silversteam-K is particularly compact, so perfect for even the smallest of kitchens. With intuitive digital controls, a rack control function and good air circulation, it can be used to steam, poach or bake foods in 1/1 GN containers.

- Material cooking chamber CNS 18/10
- Format drawers 1/1 GN
- Type of drawers Longitudinal
- Distance between trays 60 mm
- Functions
 - Circulating air
 - Steam
 - Combi-steaming
 - Low temperature cooking
 - Delta-T cooking
 - Reversing motor direction (fan wheels)
 - Steam production by means of direct injection
- Rack control Yes
- Number of cooking programs 300 pre-installed programs
300 configurable programs
- Number of cooking phases 9
- Temperature range 50 °C to 300 °C
- Continuous operation Yes
- Fan speed 3 levels
- Core temperature sensor connection Below cooking chamber
- USB connection Frontal
- Water connection 3/4"
- Interior lighting Yes
- Including
 - 1 grille GN
 - 1 tray GN
- Properties
 - Rounded baking chamber
 - Bearing rails can be detached
 - Double-winged door pane
 - LED lighting in door
- Important information
 - From a water hardness of 5° d.H upwards, we urgently recommend fitting a suitable water softener and a water pressure of maximum 3 bar
- Available on request Combi steamer with door hinge on left
- Equipment connection 3 NAC

► Electronic control with 99 programs, each program with up to 9 cooking phases

► Rack control
► To enable the selection of a program for each shelf

► Double door glazing, inner door can be opened easily for cleaning

Deck oven CL

Baked goods from a traditional bakestone made of fireclay with separately adjustable upper and lower heat. This deck oven has an impressively low temperature loss even with steaming. External steam generation and the firebrick ensure an almost constant temperature in the baking chamber.

• Material baking chamber	Refractory clay baking stone Stainless steel
• Shelf height	140 mm
• Heating type	Upper / lower heat
• Upper / lower heat can be controlled separately	Yes
• Steam generators	External steam-box
• Temperature range to	300 °C
• Temperature control	In 1 °C steps
• Number of programs	15 pre-installed programs 84 programmable manually adjustable program
• Number of baking phases	6
• Steaming	Set in the program Manual
• Time setting	1 to 99 minutes Manual baking time extension
• Automatic switch-on via timer	Yes
• Automatic pre-heating	Yes
• Control unit	Touch
• Interior lighting	LED
• USB connection	Yes
• Water intake temperature	10 °C to 40 °C
• Water connection	R3/4"
• Properties	Programs from other devices can be imported Programs with all parameters can be copied within the menu
• Important information	A pressure reducer is required from a water pressure of 35 mbar Upstream connection of a water softener is always required
• Equipment connection	3 NAC

Induction warming plates

Induction warming plate IW3

The design of this hot plate makes every buffet look more appealing. The practical solution of connecting and switching 4 appliances with the optionally available cable in one circuit also ensures a uniform, high-quality look when serving food.

- Material: Steel
- Material hob: Glass
- Size cerane surface: W 390 x D 390 mm
- Output max.: 300 W
- Number of temperature levels: 12
- Temperature range: 40 °C to 95 °C
- Intervals temperature setting: 5 °C
- Overheating protection: Yes
- Combinability: 4 appliances can be switched in sequence in 1 power circuit
- Power load: 0,3 kW | 230 V | 50-60 Hz
- Size: W 395 x D 395 x H 98 mm
- Weight: 5.6 kg

Induction warming plate IW10

114366

RRP* 169.- €

GTIN 4015613714806

Whether for buffets, in front cooking areas, or for catering events, culinary creations can be kept warm easily in induction-compatible pots, pans, and chafing dishes.

- Material hob: Glass
- Size cerane surface: W 460 x D 315 mm
- Output max.: 1000 W
- Number of temperature levels: 11
- Temperature range: 50 °C to 100 °C
- Intervals temperature setting: 5 °C
- Overheating protection: Yes
- Properties: Handles, on side
Acoustic signal for missing cookware
- Power load: 1 kW | 230 V | 50 Hz
- Size: W 530 x D 340 x H 65 mm
- Weight: 5.77 kg

Induction warming plate IW3-EBBF

105864

RRP* 1,198.- €

GTIN 4015613746821

The warming plate as a built-in variant with its simple look is the ideal solution for any form of food serving. For a uniform look, 4 devices can be connected and switched in one power circuit with the optionally available cable.

- Material Steel
- Material hob Glass
- Warming station diameter 195 mm
- Output max. 300 W
- Number of temperature levels 12
- Temperature range 40 °C to 95 °C
- Intervals temperature setting 5 °C
- Overheating protection Yes
- Can be installed Yes
- Control panel Separate
- Cable length: 0,65 m
- Combinability 4 appliances can be switched in sequence in 1 power circuit
- Important information Cannot be used as a tabletop appliance
- Power load 0,3 kW | 230 V | 50 Hz
- Size W 280 x D 280 x H 95 mm
- Weight 4.2 kg

STAINLESS
STEEL

With the "invisible" induction warming system, the worktop can be used either as a warming area or work surface. Installed under a worktop, the impressive technology allows the chafing dish to be heated up to 100 °C while the worktop temperature reaches a maximum of 35 °C.

- Output max. 650 W
- Maximum worktop temperature 35 °C
- Suitable worktop material
Glass
Ceramic
Marble
Quartz
Stone
- Suitable worktop thickness 4 - 20 mm
- Number of output levels 20
- Temperature range induction warming system to 55 °C
- Temperature range chafing dish Up to 100 °C
- Overheating protection Yes
- Control panel
Cable length: 2 m
Separate
- Suitable worktop material
1/1 GN
2/3 GN
Round up to 40 cm
- Properties
Washable air filter
- Including 1 spacer
- Power load 0,65 kW | 230 V | 50 Hz
- Size W 390 x D 390 x H 96 mm
- Weight 10 kg

- ▶ Induction warming system for more flexibility
- ▶ Installation below the worktop
- ▶ Worktop can be used either as a warming station or work surface

- ▶ Temperature range induction warming system: up to 55 °C
- ▶ Temperature range chafing dish: up to 100 °C

- ▶ Spacer
- ▶ For optimal heat transfer without heating the work surface
- ▶ Maximum worktop temperature: 35 °C

Ice-Cube Maker C26

C series ice-cube machine: Hollow cone using a spray system. Up to 25 kg of ice cubes can be produced within 24 hours - very easily via a permanent water connection.

• Number of ice cube sizes	1
• Design ice cube	Tapered form (hollow taper)
• Production by means of	Spray system
• Cooling	Air cooled
• Climate class	ST
• Water connection	3/4"
• Water outlet	Ø 21 mm
• Important information	Clearance to all sides at least 10 cm

Ice-Cube Maker C26

• Production max.	25 kg / 24 h
• Production / work step	16 Ice cubes
• Ice cube size	Ø 28 mm, height 40 mm, 18-20 g
• Storage container capacity	7 kg
• Power load	0,22 kW 230 V 50 Hz
• Size	W 395 x D 551 x H 673 mm
• Weight	25.6 kg
• GTIN	4015613780856

104049

RRP* 898.- €

Ice-Cube Maker C50

• Production max.	50 kg / 24 h
• Production / work step	24 Ice cubes
• Ice cube size	Ø 29 mm, height 40 mm, 19-21 g
• Storage container capacity	13 kg
• Power load	0,38 kW 230 V 50 Hz
• Size	W 547 x D 610 x H 823 mm
• Weight	38.4 kg
• GTIN	4015613780863

104050

RRP* 1,279.- €

Ice cube maker Q 26

Because there are no pumps or injection nozzles, the paddle system and evaporator with fingers ensure quiet and smooth running even in tough conditions.

• Number of ice cube sizes	1
• Ice cube size	32,5 x 29 x 41 mm, 21 g
• Design ice cube	Tapered form (hollow taper)
• Production by means of	Paddle system
• Cooling	Air cooled
• Climate class	SN
• Water connection	3/4"
• Water outlet	Ø 20 mm
• Filling level sensor	Yes
• Can be installed	Yes
• Height without feet	690 mm
• Important information	Clearance to all sides at least 15 cm

Ice cube maker Q 26

• Production max.	25 kg / 24 h
• Production / work step	15 Ice cubes
• Storage container capacity	10 kg
• Power load	0,265 kW 230 V 50 Hz
• Size	W 400 x D 545 x H 690 mm
• Weight	30.9 kg
• GTIN	4015613785707

104304

RRP* 1,769.- €

Ice cube maker Q 46

• Production max.	45 kg / 24 h
• Production / work step	35 Ice cubes
• Storage container capacity	16 kg
• Power load	0,36 kW 230 V 50 Hz
• Size	W 500 x D 600 x H 705 mm
• Weight	38.6 kg
• GTIN	4015613774077

104306

RRP* 2,479.- €

Ice cube maker B 28 Plus

More efficient and economical – the optimised ice-cube maker series B Plus supplies fully conical ice-cubes in high production quantities and is also very economical.

• Number of ice cube sizes	1
• Ice cube size	35 x 32 mm, 20 g
• Design ice cube	Tapered form (full taper)
• Production by means of	Spray system
• Cooling	Air cooled
• Climate class	T
• Water connection	3/4"
• Water outlet	Ø 20 mm
• Can be fitted below the counter	Yes
• Important information	Clearance to all sides at least 15 cm

Pass-through dishwasher DS 500

Hygienic and economic – the optimised feed-through dishwasher stands out thanks to its innovative drainage system, an energy-saving boiler system, efficient DuoFlo pump and smooth-running lift system.

- Basket dimensions 500 x 500 mm
- Plate height max. 440 mm
- Glasses height max. 440 mm
- Output / hour max. 60 baskets
- Run-time 60 / 120 / 180 seconds
- Number of wash programs 4
- Lye pump No
- Water softener No
- Cleaning agent dosing pump No
- Clear rinsing dosing pump Yes
- Water supply G 3/4"
- Water outlet Ø 28 mm
- Water pressure 2 - 4 bar
- Water consumption at 2 bar 2.4 litres / wash cycle
- Tank volume 22 litre(s)
- Tank heater 2,5 kW
- Height when hood is open 2055 - 2120 mm
- Height adjustable 1535 mm to 1600 mm
- Properties Inline or corner installation
- Including 1 universal basket
2 plate baskets
1 cutlery holder
Spare sealing ring supply hose
- Equipment connection 3 NAC
- Size W 725 x D 955 x H 1,535 mm
- Weight 98.5 kg

- ▶ Output / hour max.: 60 baskets
- ▶ Run-time: 60 / 120 / 180 seconds

- ▶ Lift system ELS
- ▶ Patented lift system
- ▶ Little force required and more safety

- ▶ DuoFlo pumps (slight pump loss)
- ▶ Energy-Saving-System (Boiler activity only when necessary)
- ▶ EDS drain system
- ▶ Flat tank with large filter screen
- ▶ Double-walled tank

Ice crushers

Ice crusher 4ICE+

135023

RRP* 91.- €

GTIN 4015613683171

Excellent for preparing cocktails, drinks and frozen desserts, as well as for optimum presentation of fruit and food or for cooling beverages.

- Production max. 15 kg / h
- Storage capacity collection tray 1,75 kg
- Safety switch 2
- Power load 0,08 kW | 230 V | 50 Hz
- Size W 172 x D 290 x H 460 mm
- Weight 3.5 kg

Ice crusher 2000

135026

RRP* 469.- €

GTIN 4015613738123

This powerful ice crusher can produce up to 120 kg of crushed ice per hour for caipirinhas, mojitos, iced coffee and other drinks. The non-slip feet and contact switch on the lid of the ice container ensure top safety for this powerful appliance.

- Production max. 120 kg / h
- Content of ice container 3 litre(s)
- Safety switch Magnetic contact switch on lid
- Model With ice chute
- Max. height of collection tray 165 mm
- Important information Collection tray not included in delivery
- Power load 0,2 kW | 230 V | 50/60 Hz
- Size W 300 x D 185 x H 520 mm
- Weight 5.4 kg

Ice Crusher, stainless steel

135012

RRP* 729.- €

GTIN 4015613479118

- Production max. 60 kg / h
- Storage capacity collection tray 1 kg

- Safety switch 2
- Power load 0,06 kW | 230 V | 50 Hz
- Size W 173 x D 380 x H 385 mm
- Weight 14 kg

Bartscher

FURNITURE | FURNISHINGS | OUTDOOR

Whether in a commercial kitchen, guest room or outdoor gastronomy - the equipment is crucial. They don't just need to offer storage space, but must also be easy to clean. Here you will find form & function harmoniously united.

TRANSPORT | STORAGE

Clever logistics save time:

Depending on the model, our sturdy trolleys provide secure equipment for trays, GN containers or standard bakery sheets. They are versatile and can be moved comfortably and quietly thanks to buffered rubber wheels.

Sealing machine 23180

300800

RRP* 1,198.- €

GTIN 4015613767796

Whether „to go“, for out-of-home business for for catering: When sealed, hot and cold meals are best prepared for transport and protected against germs. No spillage, no mixing of individual foodstuffs – this ensures more hygiene, cleanliness and freshness for transport and storage.

Vacuum packaging machines

Vacuum packaging machine 305/15L

300748

RRP* 159.- €

GTIN 4015613710907

Varied functions for flexible use – whether for gentle or normal vacuuming, vacuuming with vacuuming containers, marinating or sealing.

- Length welding rod 305 mm
- Number of welded joints 1
- Welding duration can be regulated 2 levels
- Vacuum pump 15 l/min. (0.9 m³/h)
- Maximum vacuum -800 mbar
- Vacuuming intensity can be regulated yes
- Properties Roll holder with integrated blade
- Including 1 vacuuming film roll (width 22 cm, length 3 m)
- 1 vacuuming film roll (width 28 cm, length 3 m)
- 1 connecting hose (for external vacuuming)
- Power load 0,13 kW | 230 V | 50 Hz
- Size W 400 x D 180 x H 92 mm
- Weight 2.5 kg

Vacuum sealer roll set 220

- Set comprises: 2 vacuum film rolls
- Width roll: 22 cm
- Length roll: 5 m

Vacuum packaging machine K 300/60L

300747

RRP* 798.- €

GTIN 4015613699264

Everything under control: The chamber vacuum packaging machine is equipped with a glass lid and a manometer to monitoring underpressure. A clamp bar in the chamber prevents the vacuuming bag from slipping.

- Material lid: Glass
- Length welding rod: 300 mm
- Number of welded joints: 2
- Welding duration can be regulated: 3 - 9 seconds
- Chamber dimensions: W 305 x D 320 x H 90 mm
- Vacuum pump: 60 L / min. (approx. 4 m³ / hours)
- Maximum vacuum: -900 mbar
- Vacuuming intensity can be regulated: yes
- Vacuum control: Time-controlled
- Properties: Vacuuming time: 20 - 99 seconds
Pressure display via manometer
Clip for vacuuming bag
- Including: 30 vacuuming bags (280 x 330 mm)
- Power load: 0,35 kW | 230 V | 50 Hz
- Size: W 375 x D 440 x H 271 mm
- Weight: 15.1 kg

Vacuum bags K1,2L

- Designed for: Chamber vacuuming units
- Design: Smooth
- Sous-Vide suitable: Yes
- Properties: 4-layer
Free from softeners
Taste and smell-neutral
Can be cooked up to 120 °C
Food-safe
- Order quantity unit: 1 pack (100 bags)

I. Application of the International Conditions of Sale

- These International Conditions of Sale apply to all contracts made with the customers of Bartscher GmbH – hereinafter referred to as Bartscher – on or after 1 December 2019 whose preponderant object is the supply of goods to the customer. Additional obligations assumed by Bartscher do not affect the application of these International Conditions of Sale.
- Terms of business of the customer conflicting with or differing from these International Conditions of Sale or the provisions applicable according to section X.-2. or X.-3. do not bind Bartscher, even if Bartscher does not object to them or even if Bartscher unconditionally renders performance or receives the customer's performance.
- These International Conditions of Sale do not apply, if the customer buys the goods for personal, family or household use and if Bartscher knew or should have known that at the time of the formation of the contract.

II. Formation of the Contract

- The customer is under an obligation to give written notice to Bartscher prior to the formation of a contract if
 - the goods to be delivered are to be fit not only for normal use or the customer orders on the assumption of a particular purpose or his expectations are based on public statements, advertising messages or other circumstances outside the formation of the concrete contract,
 - the goods to be delivered will be used in circumstances which are unusual or which present a particular risk to health, safety or the environment, or which require a more demanding use,
 - there is a risk of atypical damages or unusual amounts of loss, in particular exceeding the limits set up in section VII.-1.-d), of which the customer is or ought to be aware or
 - the goods to be delivered will be used in Germany or will be delivered to customer's clients resident in Germany.
- Orders of the customer are to be put in writing. If the customer's order deviates from the proposal or the tender submitted by Bartscher, the customer will emphasize the differences as such. Illustrations and drawings just like the measures and weight indications featuring in Bartscher's proposals or offers only constitute guidelines.
- All orders, in particular also those received by employees of Bartscher, will take effect exclusively if followed by a written acknowledgement of the order by Bartscher. The actual delivery of the goods ordered, any other conduct of Bartscher or silence on the part of Bartscher does not allow the customer to assume the formation of the contract. Bartscher can dispatch such written acknowledgement of the order up to and including fourteen (14) calendar days after the customer's order has been received by Bartscher. Until this time, the customer's order is irrevocable.
- The written acknowledgement of the order by Bartscher shall be received in time, if it is received by the customer within fourteen (14) calendar days after its date of issue. The customer will inform Bartscher without delay in writing, if the written acknowledgement of the order is received with delay.
- The written acknowledgement of the order by Bartscher sets out all the terms of the contract and brings the contract into effect even if - except for the description, the price for the goods and the quantity to be delivered - the written acknowledgement is not consistent with the declarations of the customer in every respect, especially with reference to the exclusive application of these International Conditions of Sale. The contract will only fail to come into existence if the customer objects in writing that the acknowledgement of the order by Bartscher is not completely consistent with the declarations of the customer, the customer specifies the deviations in writing and if the objection is received by Bartscher within a short time, at the latest seven (7) calendar days, after receipt of the written acknowledgement of the order by the customer.
- Particular wishes of the customer, namely particular expectations of the customer regarding the usage or the condition of the goods, guarantees or warranties with reference to the goods or the performance of the contract, as well as performance declarations, instruction manuals or security-related information requested by the customer in electronic or print form, require express written confirmation by Bartscher in every case.
- Confirmations of the contract produced by the customer are of no effect without any objection by Bartscher being necessary. In particular, neither the actual delivery of the goods, any other conduct of Bartscher or silence on the part of Bartscher shall give rise to any belief by the customer in the relevance of his confirmation.
- Bartscher's employees, commercial agents or other sales intermediaries are not authorized to dispense with the requirement of a written acknowledgement of the order by Bartscher or to make promises which differ from its content or guarantees. If and to what extent such persons are authorized to make or receive declarations with effect for or against Bartscher, is to be determined according to German law.
- Amendments to the concluded contract always require written confirmation by Bartscher.

III. Obligations of Bartscher

- Subject to a failure of delivery on part of his suppliers despite a congruent covering transaction or to an exemption according to section VII.-1. b) Bartscher must deliver the goods specified in the written acknowledgement of the order and transfer the property in the goods. Bartscher is not obliged to perform obligations not stated in the written acknowledgement of the order by Bartscher or in these International Conditions of Sale, in particular Bartscher is under no obligation if not explicitly agreed upon in writing to render planning-services, to give information regarding the goods, to furnish documents or certificates regarding the goods, to deliver accessories, to install additional safety devices, to carry out assemblies or to advise the customer.
- Bartscher's obligations under the contract made with the customer are owed only to the customer. Third parties not involved in the formation of the contract, in particular the customer's clients, are not entitled to request delivery to be made to them or to assert any other claim arising from the customer's contract with Bartscher. The customer's entitlement to take delivery continues to exist even if he assigns rights to third parties.
- Taking account of the tolerances customary in trade, Bartscher undertakes to deliver to the customer goods of the agreed kind and quantity which meet the common standards applicable in Germany and ensures that at the time of delivery the goods are free from rights or claims of private third parties which could prevent its use within the European Union. If the goods cannot be delivered in the condition offered at the time of the formation of the contract because technical improvements to goods of series production were made, Bartscher is entitled to deliver the goods with the technical improvements. Bartscher is entitled to make part deliveries and to invoice them separately.
- If further specification is required in relation to the goods to be delivered, Bartscher will carry this out having regard to his own interests and to the identifiable and legitimate interests of the customer. A request to the customer to specify the goods, or to participate in the specification, is not required. Bartscher does not undertake to inform the customer of the specification he has made or to give the customer the option of a differing specification.
- Bartscher undertakes to place the goods packaged, marked and labelled according to German standard at disposal for collection by the customer FCA (Incoterms 2020) at the place of delivery indicated in the written acknowledgement of the order or - if a place of delivery is not indicated - at the premises in 31354 Salzkotten/Germany at the agreed time of delivery. Previous separation or marking of the goods or notification to the customer of the goods being placed at disposal is not required. Under no circumstances, not even when other clauses of the Incoterms are agreed, is Bartscher obliged to inform the customer of the delivery or a failure to take the goods by the person nominated according to section IV.-6., to examine the goods with respect to their conformity with the contract on the occasion of delivery, to check the operational safety of the means of transport and the transportation safe loading or to furnish proof of the delivery being effected. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- The organization of the transport and the insurance of the goods beyond the place of delivery decide according to section III.-5. is none of Bartscher's obligations, but is incumbent upon the customer. If the customer does not give a counter instruction in writing in time, Bartscher is entitled - even without the customer asking for it or without such a commercial practice existing - to contract on terms usual in Germany in the customer's name and at the customer's expense for carriage of the goods at the customer's risk and for insurance of the transport to the destination indicated by the customer and - if such a destination is not indicated - to the place of business of the customer.
- Compliance with agreed delivery time periods or delivery dates is subject to the customer's procuring any required documents, releases, permits, approvals, licences or any other authorizations or consents in sufficient time, opening letters of credit and/or making down-payments as agreed and performing all other obligations incumbent upon him properly and in good time and subject to no delay caused by preshipment inspections mandated by non-German authorities. Moreover, agreed delivery time-periods begin on the date of the written acknowledgement of the order by Bartscher. After informing the customer, Bartscher is entitled to deliver earlier than at the agreed delivery time or to select the date of delivery within the agreed period for delivery.
- Without prejudice to his continuing legal rights, Bartscher is entitled to fulfil his obligations after the delivery time periods or de-

livery dates agreed upon, if the customer is informed that Bartscher will exceed the delivery time limit and of the time period for late performance. Subject to aforesaid conditions, Bartscher is entitled to make repeated attempts at late performance. The customer can object to late performance within reasonable time, if the late performance is unreasonable. An objection is only effective, if it is received by Bartscher before commencing late performance. Bartscher will reimburse necessary additional expenditure, proven and incurred by the customer as a result of exceeding the delivery time to the extent that Bartscher is liable for this under the provisions laid down in section VII.

- Risks as to price and performance even in relation to goods which are not clearly identifiable to the contract and without it being necessary for Bartscher to give notice to the customer about the goods being placed at disposal, pass to the customer with delivery pursuant to section III.-5., albeit irrespective thereof with readiness for delivery by Bartscher according to the originally agreed delivery time periods or delivery dates, if these are postponed on customer's request, or as soon as the title to the goods has passed to the customer. The loading of the goods is part of the customer's obligations. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Bartscher is neither obliged to clear the goods for export nor to take care of customs advance declarations. However, Bartscher will apply for necessary export licences and operate customs formalities necessary for the export if the customer has requested Bartscher to do so and has furnished Bartscher with the data essential for the export in a written notice dealing with this purpose exclusively. If the goods are not cleared for export without any intentional or grossly negligent fault on the part of Bartscher, Bartscher is entitled to avoid the contract in whole or in part without compensation. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Unless expressly agreed in written form something different, Bartscher is not obliged to obtain proves of delivery, documents, certificates, licences or other authorizations necessary for the export, transit or import, or to achieve security clearance of the goods required for the carriage or otherwise or to render assistance to the customer in obtaining them. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Bartscher is in no case liable to perform duties associated with the making available of the goods on the market outside Germany, to bear levies, duties and charges accruing outside Germany, to comply with weight and measuring systems, packaging, labelling or marking requirements or registration or certification obligations applicable outside Germany or to comply with any other legal provisions applicable to the goods outside Germany. The customer will arrange for translations in any language other than German of instructions, safety information, performance declarations or other written materials about the goods required by law or called for otherwise at his risk and expense.
- Without prejudice to his continuing legal rights and without a previous notice to the customer being necessary, Bartscher is entitled to suspend the performance of his obligations as long as, in the opinion of Bartscher, there are grounds for concern that the customer will wholly or partly fail to fulfil his obligations in accordance with the contract. In particular, the right to suspend arises if the customer insufficiently performs his obligations to enable payment to Bartscher or a third party or pays late or if the limit set by a credit insurer has been exceeded or will be exceeded with the forthcoming delivery. Instead of suspending performance Bartscher is entitled at his own discretion to make future deliveries, even if confirmed, conditional on payment in advance or on opening of a letter of credit confirmed by a major German commercial bank. Bartscher is not required to continue with performance of his obligations, if an assurance given by the customer to avoid the suspension does not provide adequate security or could be challenged pursuant to an applicable law.
- Except as provided in section III.-8., Bartscher is only obliged to inform the customer of possible disruption in performance, once the commencement of the disruption is definitely certain for Bartscher.

IV. Obligations of the Customer

- Irrespective of continuing obligations of the customer to guarantee or to enable payment, the customer undertakes to pay the agreed price for the goods in the currency specified in the written acknowledgement of the order transferring it without deduction and free of expenses and costs to one of the financial institutions designated by Bartscher. To the extent that a price for the goods has not been agreed, the price which is at the time of delivery Bartscher's usual selling price for the goods will apply. Bartscher's employees, commercial agents or other sales intermediaries are not authorized to accept payments.
- The payment to be made by the customer is in any event due for payment at the time specified in the written acknowledgement of the order or - if a time for payment is not indicated - on receipt of the invoice. The due time for payment arises without any further pre-condition and, in particular, does not depend on whether the customer has already taken delivery of the goods or the documents or has had an opportunity to examine the goods. The periods granted for payment will cease to apply and outstanding accounts will be due for immediate payment, if insolvency proceedings relating to the assets of the customer are applied for, if the customer without providing a justifiable reason does not meet fundamental obligations due towards Bartscher or towards third parties, if the customer has provided inaccurate information regarding his creditworthiness or to the extent that the cover given by a credit insurer for the customer is reduced on grounds for which Bartscher is not responsible.
- The customer warrants to have the goods transported abroad, not to transfer the right of disposal to third parties as long as the goods are in Germany, and to fulfill all legal requirements and documentations for the handling regarding customs laws and value added tax of the delivery or any service according to the applicable provisions in Germany. To the extent that Bartscher has to pay German or foreign customs duties or German or foreign value added tax, the customer will indemnify Bartscher in all and every respect without prejudice to any continuing claim by Bartscher. The indemnity is granted by the customer waiving any further requirements or other defences, in particular waiving the defence of limitation or prescription and also includes the reimbursement of the expenses incurred by Bartscher.
- Regardless of the currency and of the jurisdiction of any arbitral tribunal or court, Bartscher is entitled at his own discretion to set off incoming payments against claims existing against the customer by virtue of his own or assigned rights at the time of payment.
- Any statutory rights of the customer to set off against claims of Bartscher, to withhold payment or taking delivery of the goods, to suspend the performance of his obligations or to raise defences or counterclaims are excluded, except where the corresponding claim of the customer against Bartscher is in the same currency, is founded in the customer's own right and is either due and undisputed or has been finally adjudicated or where despite written warning by the customer Bartscher has committed a fundamental breach of his obligations due and arising out of the same contractual relationship, and has not offered any adequate assurance.
- The customer undertakes to furnish Bartscher with the data to apply for the customs formalities according to section III.-10. in reasonable time ahead and in writing, to take delivery of the goods either by himself or by a person nominated in writing by him to Bartscher at the delivery time without taking any additional period of time and at the place of delivery resulting from section III.-5. and shall fulfill all the duties imposed by the contract, by these International Conditions of Sale, by the rules of the ICC for the use of the agreed clause of the Incoterms® 2020 and by statutory provisions. The customer is only entitled to refuse to take delivery of the goods if he avoids the contract in accordance with the rules in section VI.-1.
- The customer will not promise or perform any act with regard to the goods purchased from Bartscher, if such act is forbidden under the applicable provisions in particular of foreign trade law including the U.S. export control regulations. To the extent that the customer is unsure whether such prohibitions exist, the customer shall seek consultation with Bartscher in writing.
- The customer will monitor the goods purchased from Bartscher in the market and will inform Bartscher without delay in writing of any concern that the goods might pose a risk for third parties. Moreover, the customer will, without any demand being necessary, inform Bartscher in writing if Bartscher has to observe any particular duties of reporting or registration or providing information or prior notification or other requirements for access to market or has to comply with obligations to retain documents, under the provisions in force in the customer's country or in the country where the goods are to be used.
- Irrespective of any statutory provisions, the customer shall at his own cost take care of or in any other way ensure renewed utilization, material recycling or otherwise prescribed waste disposal of the goods delivered by Bartscher to the customer and of the packaging material.

V. Delivery of non-conforming Goods or Goods with Defective Title

- Without prejudice to any exclusion or reduction of liability of the seller provided by law, goods do not conform with the contract if the customer proves that, taking into account the terms in section III., at the time the risk passes the packaging, quantity, quality or the description of the goods is significantly different to the specifications laid down in the written acknowledgement of the order, or in the absence of agreed specifications, the goods are not fit for the purpose which is usual in Germany. Changes in design, construction or material which reflect technical improvements do not constitute a lack of conformity with the contract. Regardless of the stipulation established in sentence 1, the goods shall be deemed to conform with the contract to the extent that the legal regulations applicable at the place of business of the customer do not prevent the usual use of the goods.
- To the extent that the written acknowledgement of the order by Bartscher does not contain an explicit statement to the contrary, Bartscher is in particular not liable for the goods being fit for a purpose which is not usual in Germany or for complying with further reaching expectations of the customer or for possessing the qualities of a sample or a model or for their compliance with the legal regulations existing outside Germany, for instance in the customer's country. Bartscher shall also not be liable for any non-conformity with the contract that did not exist at the time the risk has passed. To the extent that the customer, either himself or through third parties, initiates the removal of non-conformities without the prior consent of Bartscher in writing, Bartscher will be released from his liability.
- The customer is obliged vis-à-vis Bartscher to examine or to have examined every single delivery comprehensively for any discoverable or typical lack of conformity with the contract and moreover as required by law.
- Without prejudice to any exclusion or reduction of liability of the seller provided by law, goods have a deficiency in title if the customer proves that the goods are not free from enforceable rights or claims of private third parties at the time risk passes. Without prejudice to further legal requirements, third parties' rights or claims founded on industrial or other intellectual property constitute a deficiency in title only to the extent that the rights are registered, made public and in legal force in the European Union and prevent the usual use of the goods in the European Union. Regardless of the stipulation established in sentence 1, title to the goods shall be deemed not to be defective to the extent that the legal regulations applicable at the place of business of the customer do not prevent the usual use of the goods.
- The customer loses the right to rely on a lack of conformity of the goods if he does not give notice to Bartscher within a reasonable time after taking delivery in accordance with section IV.-6. Such notice has to be made in writing and directly to Bartscher and to be formulated in such a precise manner as to enable Bartscher to effect remedy measures without need for further inquiries from the customer and to secure claims against Bartscher's suppliers and moreover as required by law. Bartscher's employees, commercial agents or other sales intermediaries are not authorised to accept notices outside Bartscher's premises or to make any statements concerning lack of conformity with the contract or of title and its consequences.
- Following due notice according to section V.-5., the customer can rely on the remedies provided by these International Conditions of Sale. The customer has no other rights or claims whatsoever and no claims of a non-contractual nature due to delivery of non-conforming goods or goods with defective title. In the event of notice not having been properly given, the customer may only rely on remedies if Bartscher has intentionally concealed the lack of conformity with the contract or the deficiency in title. Statements by Bartscher as to the lack of conformity with the contract or as to the deficiency in title are for the purpose of explaining the factual position only, but do not entail any waiver by Bartscher of the requirement of proper notice.
- The customer is not entitled to remedies for delivery of non-conforming goods or goods with a deficiency in title, insofar as the customer is liable vis-à-vis third parties for conditions of the goods or their fitness for a use which are not subject of the agreement with Bartscher, or if the customer's claim is based on foreign law.
- To the extent that the customer in accordance with the terms of these International Conditions of Sale is entitled to remedies because of delivery of non-conforming goods or goods with defective title, he is entitled to demand in accordance with the terms of the UN Sales Convention delivery of substitute goods or repair of Bartscher or to reduce the price for the goods. The delivery of substitute goods or repair does not lead to a recommencement of the limitation period. The reduction of the price for the goods is limited to the damages suffered by the customer. Further claims for performance are not available to the customer. Irrespective of the customer's remedies, Bartscher is always entitled in accordance with the provision in section III.-8. to repair goods which do not conform with the contract or to supply substitute goods or to avert the customer's remedies by giving him a credit note of an appropriate amount.
- In case of unjustified assertion of remedies for delivery of non-conforming goods or goods with a deficiency in title, although the customer is or ought to have been aware that a non-conformity or a deficiency in title does not exist or that the cause for such non-conformity or deficiency in title claimed are not to be attributed to Bartscher, the customer is obliged to reimburse Bartscher for expenses incurred due to the unjustified assertion of claims.

VI. Avoidance of the Contract

- The customer is entitled to declare the contract avoided, if the respective applicable legal requirements are complied with, after he has threatened Bartscher in reasonable time after the facts justifying the avoidance of the contract had occurred with avoidance of the contract in writing and an additional period of time of reasonable length for performance fixed in writing has expired to no avail. If the customer claims delivery of substitute goods, repair or other performance, he is bound for a reasonable period of time to the chosen remedy, without being able to exercise the right of declaring the contract avoided. In any event, the customer must give notice of avoidance of the contract within reasonable time after the additional period of time has expired in writing and to Bartscher directly.
- Without prejudice to his continuing legal rights, Bartscher is entitled to avoid the contract in whole or in part if the customer objects to the application of these International Conditions of Sale, if the implementation or performance of the contract is prohibited by the law in whole or in part, if on grounds for which Bartscher is not responsible the written acknowledgement of the order by Bartscher is received by the customer more than fourteen (14) calendar days after its date of issue, if insolvency proceedings relating to the assets of the customer are applied for, or if for other reasons Bartscher cannot be expected to fulfill his obligations by means which - taking into consideration his own interests and that of the customer as far as ascertainable and legitimate at the time of formation of the contract - are unreasonable, in particular in relation to the agreed counter-performance.
- Without prejudice to his continuing legal rights, Bartscher is entitled to avoid the contract in whole or in part after prior warning if the customer does not place call off orders as agreed, if he does not furnish Bartscher with the data necessary to apply for customs formalities in due time, if without providing a justifiable reason he does not meet fundamental obligations due towards Bartscher or towards third parties, if he has provided inaccurate information regarding his creditworthiness or to the extent that the cover given by a credit insurer is reduced on grounds for which Bartscher is not responsible.

VII. Damages

- Without waiving the legal requirements, Bartscher is only obliged to pay damages due to the breach of obligations resulting from the contract with the customer, the contractual negotiations carried on with the customer or the business relation with the customer in accordance with the following provisions. These provisions apply equally for all of Bartscher's obligations to reimburse expenses.
 - The customer is required in the first instance to rely on other remedies and can only claim damages in the event of a continuing deficiency. The customer cannot claim damages as an alternative to other remedies.
 - Bartscher is not liable for the conduct of suppliers, subcontractors, carriers or freight-forwarders, for damages to which the customer has contributed or for the consequences of customer interference with the security and/or safety technology of the delivered goods. Bartscher is not liable if the contract cannot be performed as agreed at the time of its formation due to subsequent statutory or sovereign measures. Neither is Bartscher liable for impediments which occur, as a consequence of natural or political events, acts of state, industrial disputes, sabotage, accidents, terrorism, biological, physical or chemical processes or comparable circumstances and which cannot be controlled by Bartscher with reasonable means. Moreover, Bartscher is only liable to the extent that the customer proves that the executive bodies or members of staff of Bartscher have deliberately or negligently breached contractual obligations owed to the customer.
 - In the event of liability, Bartscher will compensate within the limits of lit. d) the losses of the customer to the extent that the customer proves that he has suffered an unavoidable loss caused by the breach of obligations owed to the customer by Bartscher and foreseeable to Bartscher, at the time of the formation of the contract in respect of the occurrence of the loss and its amount. Moreover, the customer is required to mitigate his loss as soon as a breach of contract is or ought to be known.
 - Bartscher is not liable for loss of profit or damage to reputation. Moreover, the amount of damages for late or non-existent delivery is limited to 0.5 per cent for each full week of delay, up to a maximum of 5 per cent of the net purchase price of the goods delivered late or not at all, and in case of remedies because of delivery of non-conforming goods and/or goods with a deficiency in title is limited to an amount of 200 per cent of the net purchase price of goods affected. However, this subparagraph does not apply to injury of life, body or health, to intentional concealment of the non-conformity or deficiency in title of the goods and to breaches of contractual obligations due to intentional harm or gross negligence.
 - For breach of contractual, pre-contractual or obligations resulting from the business relation owed to the customer, Bartscher

is obliged to pay damages exclusively in accordance with the provisions of these International Conditions of Sale. Any recourse to concurrent bases of claim, in particular of a non-contractual nature, is excluded. Equally excluded is any recourse against Bartscher's company organs, employees, servants, members of staff, representatives and/or those employed by Bartscher in the performance of his obligations on grounds of breach of contractual obligations owed by Bartscher.

- Insofar as the limitation period may not already have barred the claim, claims for damages brought by the customer are excluded after six (6) months beginning with the rejection of the claim for damages by Bartscher.
- Irrespective of continuing statutory or contractual claims, the customer is obliged to pay damages to Bartscher as follows:
 - In the event of delay in payment, the customer will pay a lump sum of EUR 50.00, the costs of arbitral, judicial and extra-judicial means and proceedings, usual and accruing within the country and abroad, as well as (without evidence being necessary) interest at the rate applicable in 33154 Salzkotten/Germany for unsecured short-term loans in the agreed currency, at least however interest at 9 per-cent points over the base rate of the German Federal Bank (Deutsche Bundesbank).
 - In the case of a late taking delivery of the goods by the customer by more than two (2) weeks, Bartscher is entitled to claim damages without evidence being necessary of 5 per cent of the value of the goods to be delivered. In the case of a late taking delivery of the goods by the customer by more than six (6) weeks or an entire failure to take delivery as well as in the event of non-delivery due to a breach of contract by the customer, Bartscher is entitled to claim damages without evidence being necessary of 20 per cent of the value of the goods to be delivered.
 - If the contract has been avoided by the customer without justification, Bartscher is entitled, insofar as he consents to the avoidance, to claim damages without evidence being necessary in the amount of 20 per cent of the value of the goods to be delivered.
- Within the bounds of what is legally possible as well as within what is usual in the trade, the customer is in his commercial relationships with his clients obliged to limit his liability both in principle and in amount.

VIII. Limitation Period

The customer's claims in respect of the delivery of new non-conforming goods and new goods with a defect in title become time-barred two (2) years after delivery of the goods. The customer's claims in respect of the delivery of non-conforming second-hand goods and second-hand goods with a defect in title become time-barred one (1) year after delivery of the goods, unless Bartscher has breached contractual obligations intentionally or grossly negligently. The delivery of substitute goods or the repair of delivered goods does not lead to a restart or suspension of the limitation period.

IX. Other Provisions

- Title of the goods that have been delivered remains with Bartscher until settlement of all claims existing against the customer. The allocation of risk as to price and performance in section III.-9. is not affected by the reservation of title.
- Irrespective of continuing statutory or contractual claims, the customer will indemnify Bartscher without limit against all claims of third parties which are brought against Bartscher on the grounds of product liability or similar provisions, to the extent that the liability is based on circumstances which - such as, for example, the presentation of the product - were caused by the customer or other third parties without express written consent of Bartscher. In particular, the indemnity also includes the reimbursement for expenses incurred by Bartscher and is granted by the customer waiving further conditions or other objections, in particular without requiring compliance with control and recall obligations, and waiving any defence of limitation.
- In relation to pictures, drawings, calculations and other documents and computer-software, which have been made available by Bartscher in a material or electronic form, the latter reserves all proprietary rights, copyrights, other industrial property rights as well as know-how rights.
- Subject to written objection by the customer, personal data, which Bartscher receives from the customer in the execution of activities covered by these International Conditions of Sale, are processed by Bartscher and also by service providers located in Germany or abroad.
- The transmission of electronic documents (EDI) requires special agreements.
- All communications, declarations, notices etc. are to be drawn up exclusively in German or English. Communications by means of fax or e-mail fulfil the requirement of being in writing.

X. General Basis of Contracts

- The place of delivery results from section III.-5. of these International Conditions of Sale and applies likewise to the delivery of substitute goods or the repair of delivered goods. The place of payment and performance for all remaining obligations arising from the legal relationship between Bartscher and the customer is 33154 Salzkotten/Germany. These provisions also apply if Bartscher assumes the costs of money remittance, renders performance for the customer somewhere else or payment is to be made in exchange of documents or goods or in the case of restitution of performances already rendered. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- The United Nations Convention of 11 April 1980 on Contracts for the International Sale of Goods (UN Sales Convention / CISG) in the English version governs the legal relationship with the customer. The UN Sales Convention applies, above and beyond its own area of application, and regardless of reservations adopted by other states, to all contracts to which these International Conditions of Sale are to be applied according to the provisions of section I.
- The formation of contract, including agreements as to the jurisdiction of courts and arbitrators, its amendments or alterations, and the contractual rights and obligations of the parties, also including the liability for death or personal injury caused by the goods to any person and breach of pre-contractual and collateral obligations, as well as the interpretation are exclusively governed by the UN Sales Convention together with these International Conditions of Sale. Where standard terms of business are used, in case of doubt the Incoterms 2020 of the International Chamber of Commerce apply taking into account the provisions stipulated in these International Conditions of Sale. Subject to differing provisions in these International Conditions of Sale, the rest of the legal relationship between the parties is governed by the Swiss Code of Obligations.
- All contractual and extra-contractual disputes as well as disputes under insolvency law, arising out of or in connection with contracts to which these International Conditions of Sale apply, including their validity, invalidity, breach or cancellation as well as other disputes arising out of the business relationship with the customer shall be finally resolved, without recourse to the ordinary courts of law, by arbitration according to the Swiss Rules of International Arbitration of the Swiss Chambers' Arbitration Institution in force on the date when the Notice of Arbitration is received in accordance with these Rules. The tribunal shall consist of three (3) arbitrators, one (1) of them shall be nominated by the claimant, one (1) of them by the respondent and the chairman of the tribunal shall be designated by the two arbitrators so nominated, or if the amount in dispute is inferior to € 250,000, there shall be one (1) arbitrator appointed according to the Swiss Rules of International Arbitration. The place of the arbitration shall be Zurich/Switzerland, the languages used in the arbitral proceedings shall be German and/or English. The competence of the Arbitral Tribunal excludes especially every statutory competence of state courts, which is provided by reason of a personal or substantive relation. If this arbitration clause is ineffective or ceases to be effective, the non-exclusive jurisdiction of the courts which have jurisdiction for 33154 Salzkotten/Germany is agreed for all disputes instead. If the relevant place of business of the customer is within the European Economic Area (EWR) or Switzerland, irrespective of any ineffectiveness of the arbitration clause and instead of bringing an action before the arbitral tribunal, Bartscher is also entitled to bring an action before the State Court which has jurisdiction for 33154 Salzkotten/Germany or the State Court of the customer's place of business.
- If provisions of these International Conditions of Sale should be or become partly or wholly ineffective, the remaining arrangements will continue to apply. The parties are bound to replace the ineffective provision with a legally valid provision, as close as possible to the commercial meaning and purpose of the ineffective provision.
