Glass Racks

Glass Racks

Features

No need for rewashing, efficiently saving time and cost. keep the glassware cleaner.

Open Profile

Allows top-to-bottom and side-to-side washing, making the glassware cleaner. Allows more air to circulate through the racks and makes faster drying and safer storing.

Stackability

Snap-fit construction shortens assembly time, and stacks all racks tightly.

Tight Connection

Snap-fit extenders will not loosen or rust over time like screws and will not come apart.

Convenient Handle

The handles on all four sides of the racks are convenient for safe delivery. Textured surface and convenient handles can avoid scratches when carried .

Guide Cards Groove

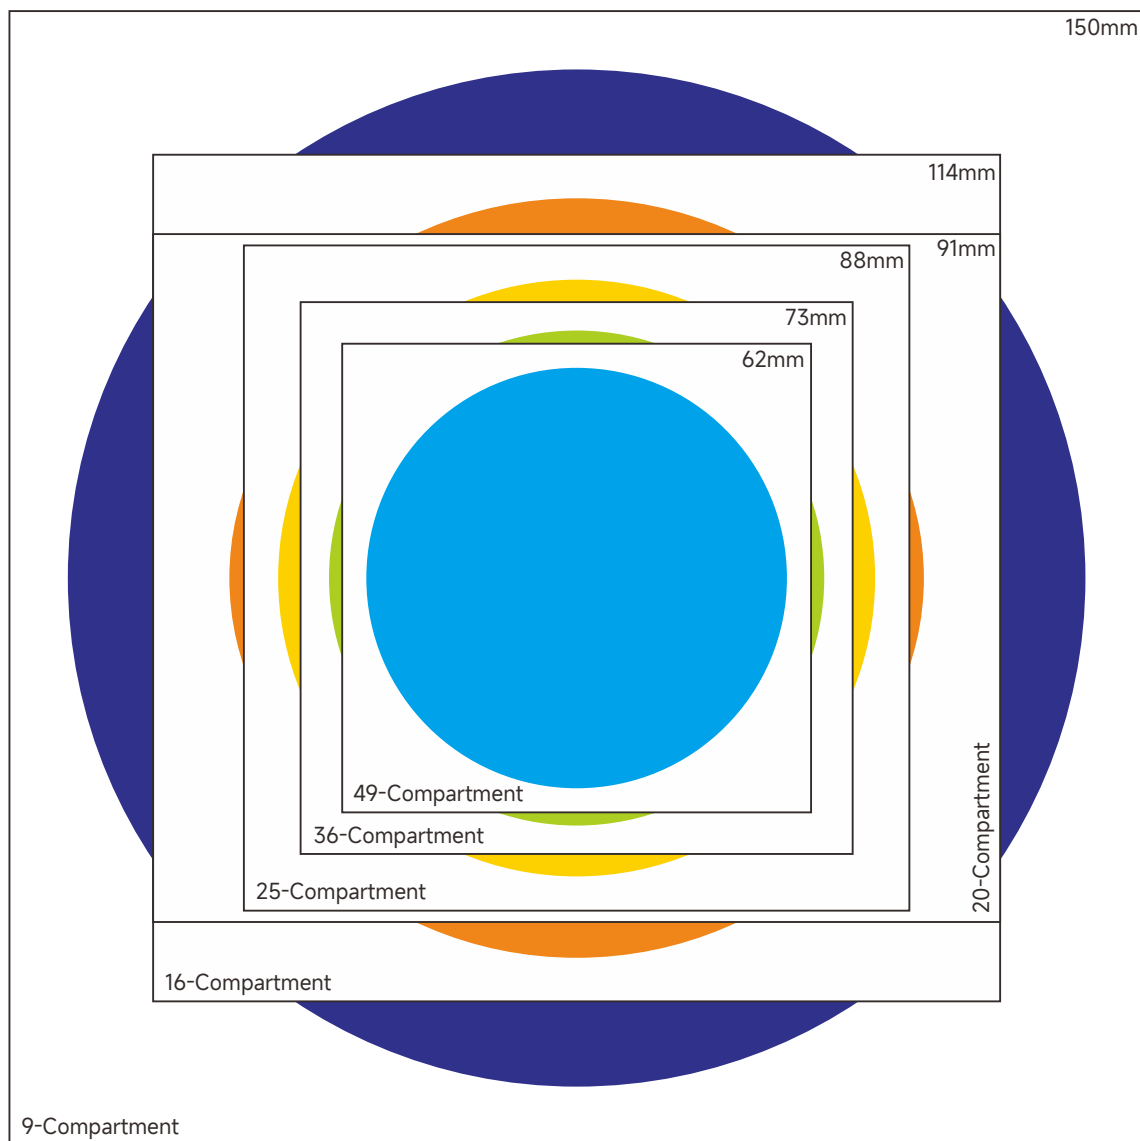

Different coloured cards can be inserted to facilitate identifying storing items and improve work efficiency.

Glass Racks

Glass Rack Sizing Guide Instruction

1. Place glass upside down on top of the middle circle of the sizing guide, center of the glass should be over the center of the guide.
2. Look down on the base of the glass.
3. Note the smallest square on the guide where the largest outside diameter of the glass lines up completely within the square without touching it. That is the number of compartments our rack needs to have.
4. Place lip of glass against the base line of the vertical guide on the right-hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
5. While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide. The next line above the base/foot on the guide indicates the number of extenders your rack will require.
6. Glasses with a maximum height exceeding 242mm will need more than five extenders. Each extender adds approximately 40mm of additional height to the inside compartment of the rack.

Square Food Storage Container

Contents and Date Indicators on Lid
Spare space of the lid can be marked with contents and date indicators, convenient to keep the quality and freshness of food.

Textured Lid
Made of polyethylene; Non-slip textured surface is resistant to scratches and helps more stable stacking.

Wide and Easy Handles
Wide molded-in and textured finish handles in larger sizes ease carrying. Drain holes in handles allow for quicker drying. Wide cove handles save effort when transported and do not waste space.

Stackable lugs
Corner stackable lugs add strength rigidity and prevent jamming when stacked.

Date indicator
Date indicators on all four sides for easy recognition.

Textured Finish
All corners, edges, handles and the bottom are designed with textured finish. It can reduce scratches, increase service time and provide safe use.

PC Square Storage Container
Transparent polycarbonate allows for easy identification of products. Polycarbonate is extremely durable and stackable. Square shape allows for practical storage in the freezers and coolers. Withstands temperatures from -40°C to 99°C (-40°F-210°F)
Colour: Clear.

PP Square Storage Container
Made of polypropylene, economical and durable. It's a good choice for food storage. Dishwasher safe. Withstands temperatures from -15°C to 80°C (5°F-176°F).
Colour: Translucent, White

Easy to adjust and install

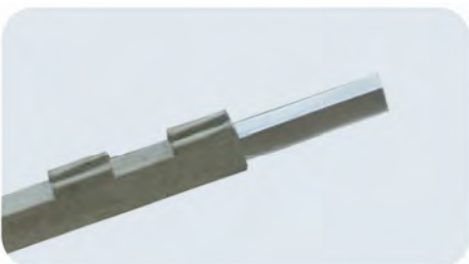

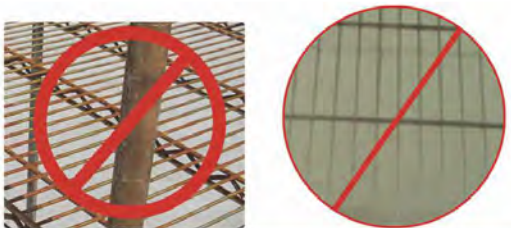

It's easy to adjust and install.
With different sizes (3 heights, 4 widths, 6 lengths),
space utilization is highly increased.
The nets can be adjusted up or down by 100
millimeters with disassembly.
Shelves can be built to U-shape units with corner
connectors.

Absolutely firm, durable and stable

Made of a steel core and polypropylene.
Inner steel provides high intensity and durability.
Exterior PP is anti-corrosion and break-resistant
Post connectors provide exceptional stabilization.

Never rusty

Can be used anywhere, no matter moist or dry
weldless, never rusty.
Resists corrosion by brine or marine air.
Suitable for coolers and freezers, available
under -38°C.

Winshelvings

Basic Unit

The components of shelf can be formed into various specifications of basic units.

Vented Basic Unit

Solid Basic Unit

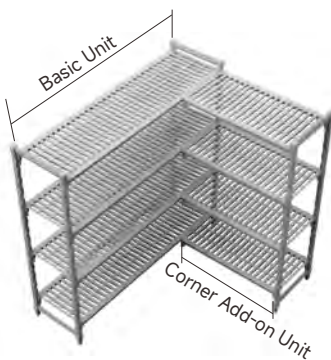

Add-on Unit

When added to a basic unit, the traverses on the first and second unit share the middle post. As a result, only two additional posts, instead of four posts or any add-on clips, are needed.

Corner Unit and U shape Unit

Corner connectors can build corner units and U-shape units. Traverses snap onto corner connectors just like they snap onto the dovetails of the posts.

Mobile Unit

Inserting the specialized bolts into the casters to change the storage shelves into the move aluminum shelving system. Mobile units are unsuitable to be used as transporting cart.

Heavy-duty Rack

To store frozen, cold and dry items 22.5cm safely off the floor. Rust free, corrosion proof and non-blending, the maximum weight load is 350kg. Different sizes of 6 heights, 4 widths of corner connectors and dunnage stand are available. Above 1220mm size must be assembled with dunnage stands and corner connectors to make sure its loading capacity.

High Density Mobile Shelving Storage System

- Maximum storage capacity can be achieved by forming a storage channel in all available space.
- The mobile shelving storage system is composed of the basic units on the raised track, with high density movable shelves in the middle.
- Tracks are easy to be installed without drilling or bonding.

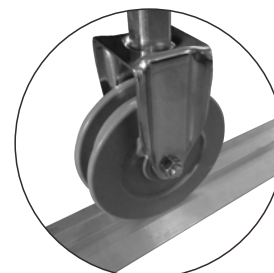

The track conveniently connects to the bottom of stationary shelving, no bolts or drilling into the floor are required. Using the connecting bolt to fasten the track.

Raised track provides a smooth surface for mobile units. It ensures dirt will not get trapped, and it is easy to clean. Shelves unit with heavy weight lands can roll smoothly on the track.

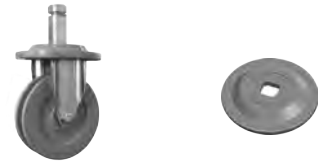

Grooved casters roll easily on raised track, which can be used on any surface. The caster with a bumper can provide protection.

High Density Mobile Shelving Storage System

Caster

High Density Mobile Unit includes 4 High Density Casters with 4 High Density Donut Bumpers.
Weight bearing capacity of High Density Mobile Unit is 340kg.
All necessary hardware is included in the track kit.

Composite Shelving

JIWINS Composite Shelving Can be used in multi environment from -38°C to 88°C

Made of innovative high-strength composite materials so each layer can bear up to 200kg.

It is comfortable to use because of it's smooth, easy-to-clean surface and its post notch embedded.

The shelf plate is added with the antibacterial agent of Microban brand in America, which can effectively inhibit the breeding of bacteria and ensure the safety and hygiene of stored products.

Buckle design makes installation and adjustment easier, and with good rust resistance. Products can withstand the influence by water, chemicals and other liquids. It can be used in the place under low temperature of minus 38 degrees and wet kitchen.
